Questions 14 - 18

For each question, choose the correct answer.

MY ORGANIC GARDEN

by Larry Davidson, age 13

Last year my family and I started to make our own fruit and vegetable garden. We wanted to do something for our planet so we decided to grow our own plants organically. This means that we only use natural ways to look after them. For example, we put our old fruit and vegetables on the ground where the plants grow, but other people just throw all their old food in the bin. Also, now we grow our own fruit and vegetables, so we don't need to buy them.

Having an organic garden is clearly a healthier option because the fruit and vegetables you grow will be safe for people and animals, too. We had to work very hard. At first, we were afraid because we might not have enough time to do everything, but then we realised that each of us could look after the garden on different days.

To make our garden we used a large wooden box which was about the size of our kitchen table. We cleaned it and made 20 holes at the bottom for the water to drain out. We covered the holes with some little stones and the soil where the plants could grow.

Then we planted very tiny plants and watered them every day. On the left we planted tomatoes, onions, carrots and potatoes, while on the right there were a few melons and strawberries. In about a month we picked our first fruits and vegetables. We were so excited when he had them for dinner!

14 Why did Larry and his family build an organic garden?

A to save money on vegetables and fruit

B to help the natural world

C to stop making so much rubbish

15 How did Larry feel in the beginning?

A tired because he spent the whole day on the garden

B lucky because he could eat a lot of healthy food

C worried because it could be too much work

16 Who looked after the garden?

A only Larry

B only Larry's family

C both Larry and his family

17 How big was the box Larry used for the garden?

A smaller than a table

B as large as a table

C larger than a table

18 What does Larry say about the fruits and vegetables he planted?

A The vegetables and fruit were in different parts.

B The plants were very small, but delicious.

C They first ate the fruit, then the vegetables.
